Pavement Consultants Inc.

Jo Lary, President of Pavement Consultants Inc., began working in the aviation industry 30 years ago. Her professional focus is the evaluation and design of airport pavements, and the implementation of airport pavement management systems. Jo has bachelor's and master's degrees in civil engineering and has completed additional post-graduate coursework focusing on pavements.

Jo is an active participant in many industry groups including ACI where she serves as a member of the World Safety Technical Standing Committee. Jo has chaired the American Society of Civil Engineers Airfield Pavement Committee, has served as Chair of the Airport Consultants Council and has served on numerous aviation-related technical panels.
