

## ACI Global Training Instructor Biography

---

**Ian BARRIE**

**Courses:** *Safety Management Systems, Working with Annex 14, Runway Incursion & Safety, Capacity Enhancement & Resource Planning, Airport Collaborative Decision Making*

---

Ian is a Consultant and Instructor for Airport Solutions Ltd, a UK based company specialising in the provision of training and advice for airports, regulators and airlines worldwide.

Ian has 40 years' experience gained across a broad spectrum of the aviation industry. He has worked in a variety of operational and senior management roles and was previously Chief Operating Officer at Swissport, responsible for several companies within their European division.

Ian specialises in the mentoring and development of managers at all levels, business change management, airport ground operations and Airport Collaborative Decision Making (ACDM; the initiative to maximise the use of airspace and airport capacity). His previous experience working closely with pilots and ground crew brings an added dimension to his Airfield operations and safety management knowledge.

He is also an associate lecturer at Sheffield Hallam University in the UK, specialising in aviation management at BSc and MSc levels.

Ian has a deep understanding of the challenges faced at all levels of the aviation industry and has successfully delivered organisational change within several large companies during his career. He has also been responsible for devising new processes and methods for providing a safe, efficient, on-time service at major airports.

He has a technical background in Departure Control Systems and weight and balance. Earlier in his career Ian was a Boeing 747F Loadmaster and FAA-approved dispatcher.
