

## Instructor Biography

---

**Paul Behnke**

**Course:** Airport Financial Management

---

Paul Behnke is currently a Senior Associate, Industry Knowledge and Intelligence for Aviation Strategies International, a Montreal-based firm. He also holds a post as an Associate Visiting Professor at Purdue University, delivering a graduate-level aviation finance course. Mr. Behnke has taken on recent assignments for ICAO, delivering a customer experience online workshop for Brazil's airports in 2020. He also prepared an issues paper for ICAO on financing of next generation air traffic systems.

Previously, Mr. Behnke was Director of Economics and Security at Airports Council International and headed committees which developed global policies for the organization's 1700 member airports. Mr. Behnke also compiled data for and produced ACI's Annual Airport Economics Report, a survey of trends from a sample of some 800 airports worldwide

Over the past decade, Paul served as instructor and course designer for the joint ACI/ICAO Airport Management Professional Accreditation Programme (AMPAP). AMPAP is the only global accreditation programme for airport executives and counts some 1,100 graduates from over 120 countries who have completed the programme's six courses.
