

Instructor Biography

Name : Matthieu GUALINO
Course: Security and Facilitation

Matthieu Gualino brings with him 13 years of experience in the area of transportation security. He has deep expertise in aviation security, including cybersecurity, risk management, training and security policy. Matthieu is certified as an aviation security instructor by ICAO and is now delivering courses for ACI.

Matthieu worked for the French Civil Aviation University (ENAC). At ENAC, he delivered courses in aviation security and aviation cybersecurity to students and civil servants from various civil aviation authorities, and he represented ENAC within the ICAO aviation security training working group, the ECAC cybersecurity study group, ICAO Europe, and the North Atlantic Aviation Security Group. From 2016 to 2020, he was Deputy Director, and later acting Director of the ICAO Aviation Security Training Center in Toulouse.

Matthieu holds a PhD in political science. His doctoral thesis analyzed aviation security governance and assessed the possibility of implementing these policies in other transportation modes. He is a lecturer in political science and law applied to transportation security at Toulouse 1 Capitole University since 2010.
