

## ACI Global Training Instructor Biography

---

**Wally WALKER**

**Courses:** *GSN Programme, Safety and Operations,  
Apron Management*

---

Wally is currently a Principle Consultant for Airport Solutions Ltd. managing projects and taking a lead role delivering aviation training and support at airports throughout the world. He specialises in Safety Management Systems, Hazard Identification and Risk Management, Airside Works and Development safeguarding, Operational Procedural Development and Emergency Planning.

Wally has delivered numerous safety-related courses on behalf of Airports Council International (ACI), including the Global Safety Network (GSN) Programme. He has created and facilitated a wide range of airside safety and compliance training modules in many countries plus a range of other specific subjects from Runway Safety to Apron Management:

- o Europe: UK, Croatia, Greece, Latvia, Norway, Poland, Romania and Portugal.
- o Middle East: Abu Dhabi, Doha, Al Ain, Muscat and Salalah.
- o Asia: Delhi and Hyderabad in India, Malaysia, Singapore and China.
- o Africa: Egypt, Sudan, Kenya and Uganda

Wally marked his 40<sup>th</sup> year in aviation in 2014 after starting his career in aircraft manufacturing working on various military and civil aircraft, covering construction, maintenance and modification programmes. With an eye for detail and analysis, Wally developed his experience moving into Aerodrome Quality and Safety Operations; Aircraft Accident Investigation and specialising in Safety Management Systems and Operational Procedures.

After 24 years in aircraft manufacturing Wally moved to Kent International Airport, then RAF Manston, as Operational Safety and Quality Manager to undertake the conversion of the aerodrome from military operation to a privately owned and full UK CAA licensed aerodrome.
